

SERVICES OVERVIEW: PRIVATE SECTOR

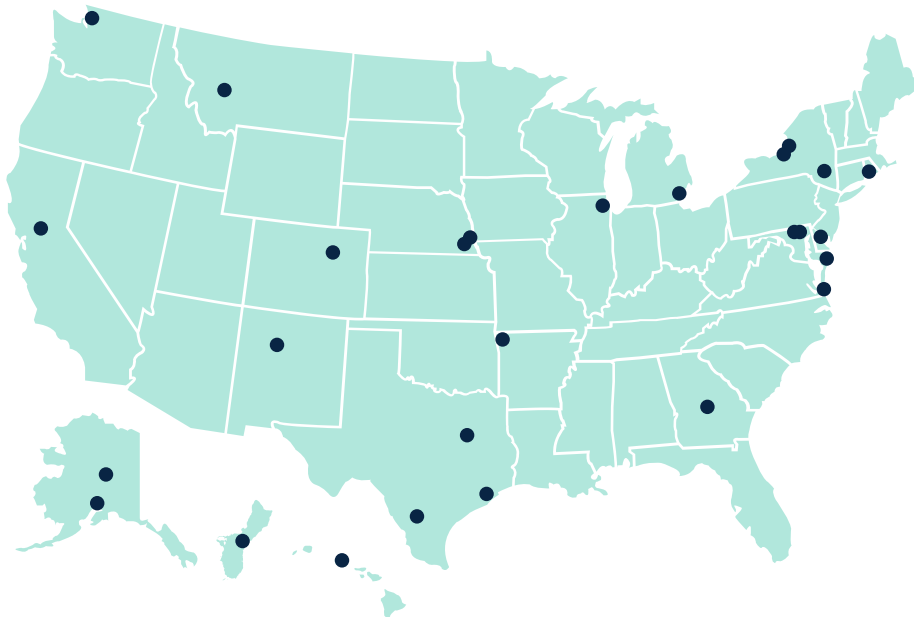

EA Engineering, Science, and Technology, Inc., PBC (EA) has been ranked by Engineering News Record as a Top 200 Environmental Firm and a Top 500 Design Firm. Since our founding in 1973, we have helped our industry clients improve performance, reduce operating costs, and achieve environmental and organizational objectives. We reduce portfolio liabilities through collaboration and application of bespoke programs that align with best practices and incorporate state-of-the-industry technology and scientific approaches. EA employs approximately 600 multi-disciplined professionals across the US and its territories.

Safety First. Safety Always.

The safety of our employees, subcontracted partners, clients, and work environments continues to be our first priority. EA's safety statistics—including an Experience Modification Rate (EMR) that consistently remains below the industry benchmark of 1.0—and National Safety Council awards reflect our commitment to maintaining a safe work environment. EA is an active member of numerous third-party supplier management services that require continual improvement in health and safety program performance.

National Presence. Local Connections.

Comprehensive Services

- Civil & Environmental Engineering
- Due Diligence Analysis & Environmental Assessments
- Environmental Construction Support
- Environmental, Health & Safety
- Environmental, Social, and Governance (ESG) & Sustainability
- Natural Resources Surveys & Planning
- Permitting & Licensing
- Sediment Management
- Site Characterization & Remediation
- Technology Solutions
- Toxicology, Treatability, & Biological Laboratories

Representative Services

Site Characterization & Remediation

- RCRA & CERCLA Remediation Programs
- PFAS Forensics & Treatment
- Human Health & Ecological Risk Screening
- Remedial Design & System Optimization
- Remedial Investigations & Feasibility Studies (RI/FS)
- Site Restoration & Monitoring
- Regulatory Strategies & Negotiations
- Public Outreach & Education
- Ecotoxicological & Treatability Laboratories

Engineering & Environmental Construction

- Erosion & Sediment Control
- Stormwater Design
- Wastewater Treatment & Optimization
- Document & Bid Package Development
- Compliance Plans & Training
- Construction Management & Inspection
- Environmental Monitoring

Site Development

- Acquisition & Divestiture Support
- Feasibility Analysis
- Phase I & II Environmental Site Assessments
- Stormwater & Wastewater Management
- Natural Resources & Rare, Threatened, & Endangered Species Surveys
- Wetland & Waterbody Surveys

ESG & Sustainability Support

- Strategic & Technical Advisory
- Materiality Assessment Facilitation
- Risk Screening, Benchmarking, & Gap Assessments
- Decarbonization Strategies
- Footprint Analysis
- Objective & Goal Setting
- Third-Party Reporting

Permitting & Licensing

- Environmental Justice Evaluations
- Requirements Analysis
- Permit Preparation & Filing
- Response to Agency Comments
- Agency Consultation & Negotiation

Compliance & Auditing

- Environmental Risk Management
- Environmental, Health, & Safety Management Systems Design, Implementation & Certification
- Auditing & Audit Program Development
- Air Emissions Inventories, Modeling, & Permitting
- Hazardous Materials Surveys & Management Plans

Information Technology Solutions

- IT/Data Management Needs Assessments
- Data and Workflow Digitization
- Relational Databases, Internet Applications, & Database-Driven Websites
- sEAmless - Software as a Service (SAAS) Tool
- GIS Application & Internet Mapping Applications
- System Training, Hosting, & Maintenance

Industries Served

- Aggregate & Mining
- Agricultural
- Air Carriers & Airports
- Chemical & Petroleum
- Food & Beverage
- Insurance
- Manufacturing
- Power & Utilities
- Rail & Marine Transport
